R+L CARRIERS

REAL-TIME SHIPMENT TRACING »

IN-CAB SCANNING TECHNOLOGY

Within minutes of pickup or delivery, MyRLC customers can access signed delivery receipts and Bills of Lading (BOLs). With In-Cab Scanning, R+L drivers scan documents at the point of transaction, providing instant notifications to tracing applications and giving you on-demand access to shipping documents. Integration with our forklift systems promotes efficient dock operations, keeping shipments on the move to their next destination.

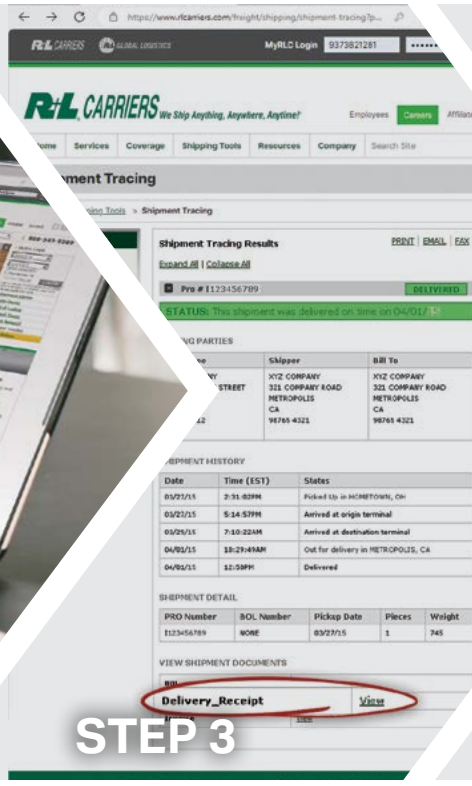
BENEFITS AT A GLANCE

- » Faster invoice processing
- » Immediate access to delivery receipts and shipping documents
- » Real-time shipment tracing with instant notifications
- » Seamless EDI transaction support
- » Faster, easier customs clearance
- » Supports Delivery Without Signature services
- » Streamlined driver-to-customer communication

HOW IT WORKS

Driver scans the delivery receipt at the time of delivery

Log in to MyRLC at rlc.com and enter the PRO number in Shipment Tracing



Click "View" next to "Delivery Receipt" to access your document instantly
